

AK BEND SRH-1000 (1125-8531721)

Control type
konventionell

Construction year
2024

Machine no.
1125-8531721

Make
AK BEND

Location
Ahaus

- ** Exhibition machine from 2024
- ** with only approx. 2x operating hours
- ** Condition NEW!!
- ** Special price on request

The AK BEND SRH hydraulic welding positioner is ideal for welding, assembly and maintenance work. Positioning is done via a hydraulic rotation and tilting function.

Description:

- electro-hydraulic turning and tilting function
- Fast handling of workpieces
- Maximum productivity thanks to optimal working position
- Lifting, tilting and turning workpieces in one clamping
- Low idle times thanks to turning components
- Maximum work performance thanks to comfortable working
- Back-friendly working for the user

Equipment:

- Continuously variable speed adjustment
- Freely movable foot switch
- Hand-held remote control with 5 meter cable
- Freely movable control panel with digital speed display
- Analogue angle display

Machine attributes

weight max. in kg:	max. 1000 kg
turning speeds:	0,18 - 0,58 U/min
height:	976 - 1436 mm
inclination:	0 - 115 °
table diameter:	895 mm
voltage:	380 V
total power requirement:	2,0 kW
weight:	685 kg
range L-W-H:	2414 x 920 x 1436 mm
