

Dumeta D-HB-3 (1125-5339)

Control type
konventionell

Construction year
NEU

Machine no.
1125-5339

Make
Dumeta

Location
D-49779 Niederlangen

The D-HB tilt and turn tables are very stable due to their heavy construction and therefore particularly suitable for heavy and precise Positioning activities and circular welding work.

Characteristics:

- Easy installation
- Increase in production is made possible
- Improvement of the welding quality through optimal positioning and Cruise control
- Reduction of crane hours and handling time, during which the Improved occupational safety.
- Self-locking gear, therefore no leading or trailing behind with eccentric load
- Electronic components from Schneider, Siemens and Delta
- Frequency-controlled stepless speed of the turntable
- High stability due to the robust construction
- CE certificate
- The D-HB series includes a remote control with foot pedal for left-right / Start-stop.

Machine attributes

table diameter:	560 mm
table load:	0,3 t
swivelling range:	0-90 Grad
table turning speeds:	0,25 - 4 U/min
Torque:	max. 360 N/m
centre of gravity:	max. 150 mm
total power requirement:	0,4 kW
