Maneuver and transport agilely and safely in narrow aisles

The P30 electric tractor and platform truck from Linde Material Handling is suitable for flexible and safe transport processes on small and medium-sized businesses. Distances ? even and especially when there is little space available. The Vehicle has precise and self-centering power steering that the driver safely controlled with an ergonomic two-handed handle. Also relieved. The compact design of the P30 allows you to maneuver in narrow aisles. The powerful three-phase motor accelerates quickly to the maximum Speed. Ensure a comfortable and secure stand while driving the adjustable backrest and the fully suspended standing platform non-slip floor covering. The maximum towing capacity of the P30 is three tonnes. It reaches a top speed of 10 kilometers per hour.

Furnishing :

- 4 millimeter thick steel chassis
- Two-grip handlebar design

- LINDE battery charger
